

Articles 2: Postgraduate programs
First: Diploma Degree

Department	Diploma name
Petroleum Engineering	well-drilling engineering - Engineering of petroleum production -Reservoir of Petroleum Engineering Other disciplines accepted (Petroleum Refining and Petrochemical Engineering - Miner Engineering - Geoengineering Engineering)
Petroleum Refining and Petrochemical Engineering	Chemical engineering and petroleum refining -Gas and petrochemical engineering Other disciplines accepted (Metals Engineering- Geometry of gases - Mining Engineering Energy Engineering petroleum Engineering Environmental Engineering)
Metallurgical and Materials Engineering	Plumbing Engineering -Ceramic Engineering - Corrosion and protection of metals - Metal Formation Engineering and Thermal Processors Welding and non-destructive tests Other disciplines accepted

	(Petrochemical Engineering Petroleum Refining - Production Mechanics)
Mining Engineering	Surface Mines Engineering - Subsurface Mines Engineering -Mineral Processing Technology- Geomatics Engineering Other disciplines accepted (Petroleum and Petrochemical Refining Engineering - Geoengineering- Engineering Powerful mechanics or production - Civil Engineering - Petroleum Engineering
Geological and Geophysical Engineering	Geological Engineering- Geophysical Engineering - Geotechnical engineering Other disciplines accepted (Civil Engineering- Petroleum Engineering- Geotechnical Engineering - Mining Engineering)

Joint diplomas

**Mining Engineering department -
Geological and Geophysical
Engineering department**

Groundwater

- **Mining Engineering
Department**
- **Petroleum Refining and
Petrochemical Engineering
Department**
- **Metallurgical and Materials
Engineering Department**

**Thermal and Energy Systems Engineering
Other disciplines accepted
(Petroleum and petrochemical refining
engineering-
Powerful mechanics or production -
metallurgical engineering**

Second: Master of Science degree in Engineering

Department	Specialty
Petroleum Engineering	Drilling Engineering Engineering of petroleum production Reservoir Engineering
Petroleum Refining and Petrochemical Engineering	Petroleum Refining and Petrochemical Engineering
Metallurgical and Materials Engineering	Metallurgical and Materials Engineering
Mining Engineering	Mining Engineering
Geological and Geophysical Engineering	Geological and Geophysical Engineering
• Mining Engineering department • Petroleum Refining and Petrochemical Engineering Department • Metallurgical and Materials Engineering Department	Power Engineering

Third: Ph.D. in Engineering

Department	Specialty
Petroleum Engineering	Drilling Engineering Engineering of petroleum production- Reservoir Engineering
Petroleum Refining and Petrochemical Engineering	Petroleum Refining and Petrochemical Engineering
Metallurgical and Materials Engineering	Metallurgical and Materials Engineering
Mining Engineering	Mining Engineering - Geometry of Ore Concentration
Geological and Geophysical Engineering	Geological and Geophysical Engineering
• Mining Engineering department • Petroleum Refining and Petrochemical Engineering Department - Metallurgical and Materials Engineering Department	power engineering
